

Configuration Management (CM) Support for JITF

4/6/2000

Purpose and Background

- ❖ Identify services provided by AFRL CM in support of the JITF test process
- ❖ AFRL CM has supported the Intelligence Community for 10+ years
- ❖ Provided services to JITF since its stand up
- ❖ Support covers all aspects of the test process
 - ❖ Preparation, execution, and reporting

Test Preparation Support

- ❖ Monitor JITF schedule for milestone activities
- ❖ Attend JITF Joint Test Planning Meetings (JTPMs), Joint Readiness Reviews (JRRs) and Test In-Brief meetings
- ❖ Provide library services for all documentation and media
- ❖ Duplication of documentation and software
- ❖ Provide reports on previously identified test findings for closure or updates

Test Execution Support

- ❖ Works with JITF to port Notetaker information into the Configuration Management Database (CMDB)
- ❖ Log, track and monitor test findings
 - ❖ Software findings
 - ❖ Document findings
- ❖ Provide Quality Assurance
 - ❖ Review test findings for completeness
- ❖ Provide additional support as required
 - ❖ Documentation research

Test Reporting Support

- ❖ Provide JITF Engineer Report using CMDB
 - ❖ Assists in generating JITF Test Report
- ❖ Generate Software Findings and Document Findings Tables
 - ❖ Sections 10 through 13 in the JITF Test Report
- ❖ Distribute JITF Test Reports
 - ❖ Maintain complete listing of Program Office and DODIIS Management POCs
- ❖ Update the CMDB to allow all registered users access to JITF Test Findings

Additional Support

- ❖ Liason
 - ❖ Provide direction to users for test reports and other related materials or information.
- ❖ JITF Test Findings can be converted to official Problem Reports/Change Requests (PR/CRs) and Document Review Reports (DRRs)
 - ❖ Applies for programs under AFRL CM support
 - ❖ PR/CRs and DRRs are “change documents” that facilitate improvement for the program
 - ❖ Findings can be cross-referenced to PR/CRs and DRRs.

Additional Support (Con't)

- ❖ Library
 - ❖ Maintain Technical Library of all IMA documentation and software.
- ❖ Training
 - ❖ Provide CMDB Support/Training.
 - ❖ Coordination of process changes between CM and the JITF.
